Smart Sports Posts

Removable Sports Posts
Safe & Secure year after year.

Relocate items each day,
week or year.

*Remove items to reduce vandalism
or end of season.*

*Smart socket can be capped
or used to secure another item.*

Simply Smarter!

“We recommend Smart Sports Posts to all our customers wanting safe and secure sports posts. Clients are very happy with the versatility it provides and the quality and durability of the products”

Up & Running Sports

SAFER Sports Posts

Soccer and sports posts can be secured using the Smart Auto-Lock Taper making them stable and ensuring they remain correctly aligned.

Post will not become loose over time, cannot spin around or be removed by unauthorised persons. (Your units can be altered at any time to simply twist and remove if required)

Flexibility to move items around as required

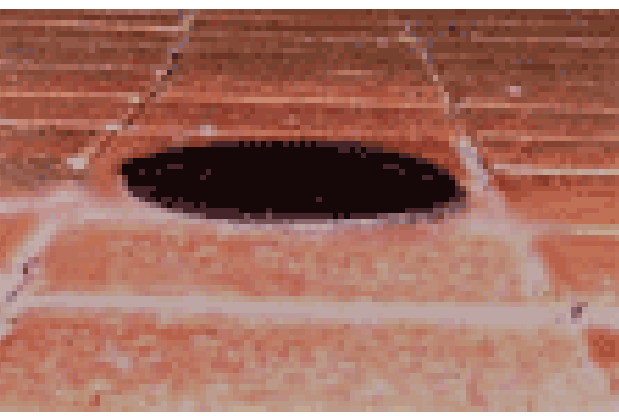

Secure and easily relocate sports equipment, as requirements change throughout the day/ week/ year.

Interchangeable

Smart Sports posts are interchangeable. You can easily remove volleyball nets and install badminton, tennis or even remove and cap off so you can use the same court to play netball.

Made to specifications

Smart Sports Posts can be made to your specifications or you can choose from our standard range. Ask for a catalogue.

Simple to use

SIMPLY DROP ITEM IN SOCKET

A polypropylene Smart Taper is attached to the post and the post is dropped into the tapered socket. The item will automatically lock in place using friction.

LOCKED IN

You can have posts that can only be removed by authorised persons using the removal tool.

OR NOT LOCKED IN

OR the locking capacity can be altered at any time and items can be made removable by hand, if desired.

SMART CAP

Smart socket can be capped when not in use. Two versions available- standard plastic cap or vandal-proof stainless steel caps .

WORKS EVERY TIME!

The posts will remain well secured and stable for generations, and will be easily removable no matter how long between removals.

MAKE BETTER USE OF SPACE & SPORTS EQUIPMENT

Use one item in several locations by installing several sockets, or alternatively additional Tapers may be purchased for multiple items used in same location.

Sockets can be installed in almost any surface.

Socket Depths 150 mm/250 mm/350mm/ 650mm/ 950 mm +
* Conditions Apply. We can provide a quote for installation of sockets , although sockets are very easy to install. Specifications are provided and assistance with initial installation can be provided *
